INTRODUCTION

Final-year B.Tech student in Artificial Intelligence and Data Science at Shiv Nadar University, Chennai. Strong foundation in Java and backend development with Spring Boot, with basic knowledge in Python and SQL. Passionate about Data Structures and Algorithms and building scalable applications. Exploring full-stack development with React, and database with MongoDB atlas, with the goal of contributing to software engineering projects.

EDUCATION

Shiv Nadar University – Chennai

B.Tech in Artificial Intelligence and Data Science, CGPA: 7.946

2023 – 2027

PROJECTS

AI-Powered Smart Expense Tracker | *Full-Stack + AI Development*

- Built a full-stack expense tracking web application using React, FastAPI, and MongoDB with JWT authentication and Google OAuth 2.0 login, deployed on Vercel and Render.
- Implemented OCR receipt scanning to automatically extract expense details from photos and integrated Google Gemini AI to generate personalized monthly spending recommendations.
- Developed real-time dashboard analytics with interactive charts, category-wise budget tracking, an AI chatbot for financial advice, and downloadable PDF/Excel reports.

Campus Navigator | *Web + Algorithms*

- Developed a campus navigation system with an interactive map-based user interface.
- Built the frontend using HTML, CSS, and JavaScript, with a Python Flask backend for route computation.
- Implemented the A* pathfinding algorithm to calculate and display the shortest path between campus locations.

Talos Assets Analytics Dashboard | *Full-Stack Development*

- Built a full-stack dashboard using React and FastAPI to visualize call centre performance data, processing call records from Excel reports across multiple branches, dialers, and languages.
- Developed REST APIs with Pandas-based data pipelines for automated aggregation, cascading filters, and JWT-based user authentication.
- Deployed the application to a production server using Nginx and systemd, enabling live and automated dashboard reporting.

TECHNICAL SKILLS

Languages: Java, Python, SQL, JavaScript, HTML, CSS

Frameworks & Tools: Spring Boot, React, Git, Jupyter Notebook, Postman

Databases: MySQL, MongoDB

Core CS: Data Structures, Algorithms

ACHIEVEMENTS & CERTIFICATIONS

Problem Solving: Solved 370+ problems on LeetCode.

Programming & CS Fundamentals: Programming in Java (Infosys), Data Structures & Algorithms using Java (Infosys), Database Management Systems (Infosys), Getting Started with Competitive Programming (NPTEL), Introduction to LLM (NPTEL), Social Network Analysis (NPTEL).

Agile & Software Engineering: Agile Scrum in Practice (Infosys), Software Engineering and Agile Software Practices (Infosys).

Databases & Systems: Introduction to NoSQL Databases (Infosys).

Professional Skills (Infosys): Effective Email Writing, High-Impact Presentation, Time Management.
